SUMMARY

i am a Data Analyst with a strong grasp of Python, Pandas, NumPy, SQL, Excel, and Power BI.
Currently studying Data Science and applying skills to real datasets and business problems.
Experienced in transforming raw data into clear dashboards and reports.
Capable of finding patterns, spotting trends, and delivering actionable insights.
Efficient in handling complex data tasks with a structured, analytical approach.
Driven to support smart decision-making through clean, reliable data analysis.

PROJECTS

📊Data.AI - AI Insight Chatbot 🔗

- A Streamlit-powered AI chatbot that interacts with uploaded CSV files to generate instant insights. Integrated with Gemini AI, the bot analyzes data, detects trends, and answers natural-language questions—mimicking a data analyst in real-time.

🛍 Flipkart Product Data Analysis 🔗

- Analyzed product listings from Flipkart to uncover pricing strategies, rating patterns, and category-wise trends. Delivered interactive visualizations using Pandas and Power BI to support e-commerce business decisions.

🍕 Pizza Sales Analysis Dashboard 🔗

- Explored sales data to identify top-performing pizzas, busy sales periods, and monthly revenue trends. Built dashboards with Power BI and Pandas to help optimize menu offerings and boost profitability.

EDUCATION

Bachelor's Degree in Data Science   **Sep 2023 - Present**

Sushila Devi Bansal College Of Engineering
- Specialization in Data Science.
- Year of completion 2027.

SKILLS

Technical Skills

- Programming & Scripting: Python, SQL
- Data Analysis Libraries: Pandas, NumPy
- Dashboarding & BI Tools: Power BI, Excel
- Web App & Automation: Streamlit
- AI & LLM Tools: Gemini AI,Prompt Engineering
- Core Skills: Data visualization, trend analysis

Soft Skills

- Analytical thinking
- Problem-solving
- Vibe coding
- Communication
